2. We are still to be working on three “initiatives of change” for the department, that the dean has requested, to put in the division’s Strategic Plan. (Email and documents attached.) These would preferably have measurable outcomes. Please let me know of any you come up with, and ***write me a paragraph describing each.***

Example ideas: **Outreach:** Critical Thinking Partnership; **Research:** History of Philosophy in the Americas; **EDI:** Reporting System; **Undergraduate program:** “Being in the World” zoom series with alumni, expanding social tools of philosophy majors, 100W philosophy writing course; ...

(Being on this list does not mean it will be forwarded as a department project. These are just examples, though real ones, to give you an idea what sort of thing might be suitable.)
